Vapour Recovery Couplers

DESIGN CHARACTERISTICS

Robust Construction from aluminium alloy and stainless steel pin along with variants to fit all needs guaranty the problem free service of KALIMNOS vapour recovery couplers.

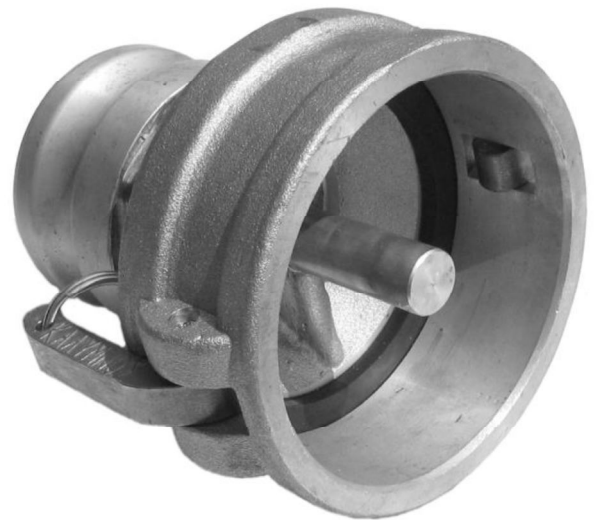

- Robust Construction of coupler made of aluminium alloy.
- Brass Cam with stainless steel rings for elimination of wear and corrosion problems.
- Stainless Steel pin
- Three Variants available for different ways of connecting the vapour recovery hose.

Vapour Recovery Coupler
w 3" Hose Shank

Vapour Recovery Coupler
w female 3" coupler

Vapour Recovery Coupler
w male 3" adaptor

TECHNICAL DATA

Vapour Recovery Coupler w 3" Hose Shank	: 1.3 kg
Vapour Recovery Coupler w 3" Male Adaptor	: 1.5 kg
Vapour Recovery Coupler w 3" Female Adaptor	: 2.0 kg
